Some men love to whip a mountain stream with a trout line and they never see the clear waters of a rushing brook break around the large boulders and then come together at the lower edge of the pool, that they do not experience the peculiar thrill of fishermen who know where the trout generally strike. It is an instinctive attitude in which reason plays a smaller part than countless pleasurable experiences in the past. They see the stream in terms of trout pools. Other men have for fifty years been perfecting an irrigation system largely by the construction of storage reservoirs. As they see the mountain canon separate and then come together until the walls allow the river to pass through a narrow channel, they are certain to remark, What a place for a storage reservoir! And, remarks the electrical engineer, Along with...

*This ebook can be worthy of a go through, and a lot better than other. Better than never, though I am quite late in starting to read this one. It has been printed in an exceedingly easy way which is just soon after I finished reading this book where basically modified me, affect the way I really believe.*
